EXPLORING ANGER

8 MONDAY EVENINGS April 29 – June 24 (no group May 20) 6:30 pm - 9:00 pm

This group is for people who have difficulty either expressing or controlling their anger. Through experiential and educational exercises, handouts and discussions we will explore how we experience, respond to, feel about and are aware of our anger, and how it manifests itself. Group members will look at emotions that underlie, affect and suppress our anger. We will examine our beliefs about what anger is and isn't. Communication skills will be practised as a means of expressing anger respectfully, and practical tools will be offered as an aid to exploring and dealing with our anger. *An in-person pre-group interview is required.*

MINDFULNESS BASED PRACTICES TO MOVE THROUGH DEPRESSION AND ANXIETY

8 TUESDAY EVENINGS May 7 – June 25 6:30 pm - 9:00 pm

Are you tired of your busy mind dragging you into anxiety and depression? Mindfulness is the practice of paying attention to what is happening in the present moment – in the mind, body and surroundings – in a non-judgmental, genuinely curious way. Group members will learn to identify the mind states and patterns of thinking that contribute to their anxiety and depression. Group members will learn about ways we sometimes escape the present moment, such as thinking about the future, ruminating over the past, judging, or creating story lines around the external conditions of life. A variety of mindfulness practices will be introduced so that members can discover ways to change the patterns of thinking that contribute to their personal distress.

An in-person pre-group interview is required.

BUILDING SELF ESTEEM: FROM EXPLORATION TO EMPOWERMENT

8 THURSDAY EVENINGS May 2 – June 20 6:30 pm - 9:00 pm

This is a psycho-educational and experiential group. Through handouts and discussions we will explore our communication styles, our boundaries and boundary setting, our family of origin, thought stopping techniques, our inner critic and our self-image. You will learn and practice tools to increase your self confidence for developing and achieving your personal goals. *An in-person pre-group interview is required.*

SHAME RESILIENCE

8 SATURDAY MORNINGS May 11 – June 29 9:30 am - 12:00 pm

Shame is a universal emotion that invites us to feel bad about who we are. It is associated with depression, grief, anxiety, eating disorders, addiction and violence. Shame creates feelings of fear, blame and disconnect. In this educational and interactive group, we will learn to recognize and understand shame and cultivate shame resilience. The content was developed by shame researcher and author Dr. Brené Brown. Through personal and group exercises, videos, readings and group discussion, we will explore our experiences and responses to shame. We will also learn how practicing empathy, critical awareness and connecting with others helps us stand up to shame. *An in-person pre-group interview is required.*
